

Color-Coded System Makes Visualization of Our Alcohol Portfolio Simple

Managing reagents just got easier. Leica Biosystems introduces a NEW visual color-coded labeling system across its complete portfolio of 70%, 80%, 95%, 100% and Isopropyl Alcohol reagents. Leica Biosystems alcohol provides consistent high quality for all formulating, processing and staining procedures in histology and cytology.

Increased Flexibility: The addition of the NEW 70% and 80% reagent alcohols offers increased lab flexibility.

Safe and Easy Storing: Gallon sizes are supplied in non-breakable polybottles for increased safety and convenient disposal.

Product Code	Product Description	Quantity
3803677	REAGENT ALCOHOL 70% (4 GALS)	1 Case of 4 pieces
3803680	REAGENT ALCOHOL 80% (4 GALS)	1 Case of 4 pieces
3803682	REAGENT ALCOHOL 95% (4 GALS)	1 Case of 4 pieces
3803686	REAGENT ALCOHOL 100% (4 GALS)	1 Case of 4 pieces
3803660	ISOPROPYL ALCOHOL (4 GALS)	1 Case of 4 pieces
